A pair of mules hitched to a wagon got away and started to elope with each other Monday morning. They started running near Jacobs' stables and ran down Marrington street as far as the jail when one of the mules stumbled and fell and stopped the parade which was by this time getting into pretty high gear. The Ewart-Perry company has gone into bankruptcy and the store is closed. The members of this firm, Messrs. W. F. Ewart, R. C. Perry and R. H. Swittenberg are all fine fellows and have been in business in Newberry a long time and their friends who are legion will be sorry to hear of their misfortune. The assets are much larger than the liabilities but poor collections was the trouble.

We understand there is a night school at each of the mills for the benefit of those who must work in the daytime. This is good, but what's the matter with the town, that there is not a night school for clerks and others who might wish to enjoy such a privilege if the opportunity were offered. The reporter has been told that there is quite a number of young people in the city who would like to attend a night school if one could be arranged and conveniently located.

The Vital Matter of Taxation.

No good citizen wants to be exempt from taxation, but it is one thing to support the government economically administered, and quite another to maintain it extravagantly administered. The one is consistent with patriotism and State loyalty, the other strangles patriotism. One could wish that the last proposition were not true but human nature has to be dealt with just as it is found and not otherwise. A generation ago when the writer read of other peoples' being tax ridden he did not then dream that one day he himself would be ground down beneath the iron heel of the tax gatherer; but the unexpected has come to pass. It is to be hoped that Newberry's senator and representatives favored moderation in making appropriations at the last session of the legislature, but it is certain that the major part did not have economy before their eyes. I hope that those upon whom the honor of making our laws is conferred will forbear to drive the tax payer to desperation. Once it was unctiously proclaimed that our country was the asylum for the oppressed of all nations and lands, but this saying is fast becoming a hollow mockery so far as South Carolina is concerned. Time was when our State signaled her opposition to oppression and wrong. Is she losing this pristine virtue?

But I loyally appeal to our dear old State to lighten the burden that is crushing some of her honest taxpayers.

An afternoon affair of beauty and pleasure was the "rook party" given by Mrs. Jno M. Kinard, Tuesday. The parlor, reception hall, living room and conservatory were all in the chosen colors of the afternoon, yellow. Large vases and bowls of golden jonquils and daffodils were seen on mantles and tables and candles with yellow shades cast a yellow glow over the rooms. The score cards were hand painted jonquils tied with yellow ribbon and the refreshments still further carried out the color scheme, yellow and white mints, yellow and white block cream, followed by cheese, crackers and coffee. About 50 ladies were included in the invitations for the afternoon.

GOOD EYESIGHT AND GOOD WORKMANSHIP

often go hand in hand. The workman who is handicapped by defective vision is often unconsciously limiting his opportunities for advancement

If your work requires the concentrated use of your eyes for long periods at a time, be sure that your eyesight is all that it should. If you need glasses, by all means get them at once. Neglect of your eyes will show in the pay envelope.
